

THE GAZETTE.

FRIDAY EVENING, SEPT. 30.

IMPORTANT LAW SUIT.—The most important law suit in Virginia is now pending in a court at Abingdon, Va., involving more than a half a million of dollars. The material facts in this case are as follows: Thomas L. Preston, the plaintiff, was advised to execute a deed of trust for the benefit of his creditors, which was accordingly done, and Mr. Gibbons, of Wytheville, appointed trustee. Some time during the early part of the war the Preston Salt Works were sold under the deed, and Stewart & Palmer became the purchasers at \$425,000. The object of this suit is to set aside the sale, the plaintiff alleging in his bill and answer, and that the trustee and the purchasers were in conspiracy, and that the trustee himself was interested in the purchase. The answer of the defendants has not yet been filed, but they will deny the allegations of the plaintiff. The case elicits the consent of the parties, and when we consider the character of the parties, the amount at issue and the grand array of counsel, it is unequalled in the history of Virginia jurisprudence. Nothing was done in the case further than this: The court ordered that the plaintiff should deliver to the defendants certain papers before their answers were filed. This question of practice gave rise to a long and spirited discussion.

FAMOUS INHERITANCE.—A modest music dealer was recently surprised by a lady as stout as Perceps Ross, who inquired, "Have you put me in my little bed?"

Some of the lady's hearts as brittle as glass. He thought to engrave his name on them, but she would not allow it.

A woman in Cincinnati raises forty-eight inches of hair on her head every three years and then she sells it.

A young lady in Norfolk, Va., who was to have been led to the hymeneal altar last Thursday, has had the wedding day postponed a fortnight, because her beautiful face was slightly disfigured by mosquito bites.

CHARLES WHITTLESEY,
U. S. COMMISSIONER,
AND
ATTORNEY AND COUNSELLOR IN
BANKRUPTCY.

Congress having just amended the Bankrupt law so that nearly all parties can be discharged from their debts, another opportunity is offered to secure the benefits of this most effective and permanent measure of relief. The above-named will make bankrupt business a specialty; will procure discharges on the most moderate terms, and transact all business in that line at prices which cannot fail to be satisfactory. Being U. S. Commissioner, he will endeavor to visit the different counties on court days, and thus save parties the trouble and expense of several trips to Alexandria in beginning and proceeding with their cases. Discharges can be obtained here before Register Hill as promptly as in Richmond or elsewhere, and at much less expense to parties. It may be added that the Bankrupt act, in connection with the Homestead exemption, which it is now believed will be secured to the bankrupt, is the only real relief now offered to parties struggling in the hopeless bondage of old debts. Address personally, or by letter at No. 12 South Royal street, Alexandria. [July 16-ly]

PURE BONE FLOUR.

This article is especially prepared to meet the wants of farmers, who need a

CHEAP, RELIABLE, AND DURABLE FERTILIZER.

possessing Ammonia enough to make the growing crop, and permanent fertilizing qualities in abundance to enrich the soil.

Bone has been so tampered with by unscrupulous manipulators that consumers have justly become suspicious of it.

To satisfy such, I append the result of an analysis of this article by the eminent and well-known Chemist, Dr. G. A. Liebig, together with his remarks in regard to it.

Moisture.....7.51
Organic Nitrogenous Matter.....17.32
Bone Phosphate of Lime.....56.20

He says: "This is a superior article of Flour of Bone; pure, unsulphurated and free from all worthless impurities. One hundred pounds of it contains nearly as much of Phosphates as 150 lbs of the common article of Raw Bone."

"Through the peculiar process to which it has been subjected, it has been rendered highly friable and soft, and will thus be readily assimilated in the soil."

"EXCELSIOR."

CONTAINING 6 per cent Super-Phosphate, equivalent to Bone Phosphate of Lime.....57 per cent Potash and Soda.....5 per cent

EXCELSIOR is composed of 700 pounds of No. 1 Peruvian Guano, and 1800 pounds of Soluble Phosphate of Lime (bones dissolved in sulphuric acid), potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniacal guanos, but stimulating the crop to which it is applied, and all succeeding crops, giving to poor, worn out and unproductive soils new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money have been expended.

EXCELSIOR was introduced in 1858, and we challenge the manufacturers and vendors of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. One of the PROPRIETORS SUPERINTENDENTS IN PERSON EVERY MINUTE OF ITS MANUFACTURE, and therefore warrant every bag uniform, and to contain the standard of the standard of fertilizing property, giving that protection to the farmer which he does not have in the purchase of any other Guano or Fertilizer sold.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small, and it is the opinion of the most prominent and calculating farmers, and TWELVE years' experience in testing, made by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, and therefore is fully 100 to 200 per cent cheaper.

The very best evidence we can offer of the value of Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited. Some unprincipled manufacturers have actually used the trade mark for the purpose of palming off their worthless compounds.

The ANALYSIS and name of "J. J. TURNER & CO." in Red Letters, are branded on every bag. All others are counterfeits.

Price \$65 per ton.

For Corn, Oats and Spring Crops generally it has no superior. Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other fertilizer sold, except "Excelsior," and is made with care and supervision—uniformity of quality guaranteed. We have on hand a supply of
NO. 1 PERUVIAN GUANO,

PURE BONE DUST,
of different grades.
MAPES' NITROGENIZED SUPER-PHOSPHATE OF LIME,
containing 25 to 30 per cent of ammonia and 14 per cent of Soluble Bone Phosphate, which has been extensively used in 1852 in different sections of the country, and is highly recommended as an active as well as a permanent fertilizer, as per testimonials in our possession.
SOFT BLUE WINDSOR PLASTER,
fresh and finely ground, in bags or barrels.
All other Standard Fertilizers for sale at lowest market prices.
sep 19 HOUE, WEDDERBURN & CO.

ZELL'S AMMONIATED BONE SUPER-PHOSPHATE.

The best and most popular Fertilizer in use. Quick and active as Peruvian Guano, and permanently improves the soil.

It stands the drought better than any other Fertilizer, which is very important to the farmer.

It is manufactured of Bones, Animal Matter and a rich Phosphoric Guano, containing over sixty per cent of Bone Phosphate of Lime, treated with Sulphuric Acid, and 10 to 15 per cent Bone Phosphate of Lime rendered soluble; at the same time rendered quick in its action by the addition of over 2 per cent of Ammonia.

This superior Phosphate has now been tested for over five years, on all kinds of crops, by the side of all known Fertilizers, proved equal to the best, and has given all the general satisfaction that could be desired.

For this valuable Fertilizer we only ask a trial side by side with any Fertilizer in the market to attest its superiority.

Every farmer should give it a trial, as the cost will be more than repaid the first year, and its beneficial effects are permanent.

For Corn, Oats, Wheat, Rye or Grass, it has no superior.
Zell's Phosphate is fine and dry for drilling, and is put up in bags or barrels.
Price \$60 per ton of 2000 lbs.

Send for a circular, and read the certificates of some of the best farmers in Virginia who attest its superiority over all other Fertilizers.

SOLUBLE PACIFIC GUANO.

QUALITY AND CONDITION.
The quality of this Guano is materially improved this season by the addition to its composition of a large per cent of the SALTS OF POTASH.

It is improved in condition by being brought into market by a regular and uniform fine soil with facility and regularity through the offices of the

WHEAT DRILL.
More than \$1,000,000 is involved in the production of this Guano, and the trade in it has steadily increased until now it far exceeds that of any other fertilizer.

The Pacific Guano Company has a far greater interest in the maintenance of the quality of its Guano than any number of consumers can have; hence no apprehension need exist as to its continued excellence.
